

The following table contains the proposed evaluation as a consequence of the results of the midterms for this year.

Altamura	20
Barletta	18
Bottura	20
De Turrís	28
Gebrewahd	25
Ginesi	26
Lacis	20
Olimpio	18

Those Students who passed the whole set of tests (Altamura, De Turrís, Gebrewahd, Ginesi and Lacis) can either accept and verbalize the proposed grade (an email is enough) or they can choose to pass an oral exam, in order to attempt to change (increment or decrement) the result.

Those who, instead, sustained only 3 midterms (Barletta, Bottura and Olimpio) must pass an oral to confirm, or possibly change, the score.

In alternative, as it is for all Students, it is possible to develop the project for this AA.
