Exam tips

Mail the Arduino project documentation and the lesson to professor one week before the presentation

How to write the readable mail:

- **Object** of the mail: final exam , lesson and Arduino *project name* .
- **Body** of the mail: information about the 2 works
- **File attached**: Arduino PDF or PPT or DOC file. NOT DOCX or PPTX.

How to write the correct Arduino file:

- **File name** : name of the project
- **Content**: explanation of the project
- **Code** WITH COMMENTS. the first comments MUST BE:
  - Name of the program (exactly file name)
  - What the program do
  - Name of the authors (if you copied from internet don't erase previous names)
  - Date of creation
- **Circuit diagram** with Fritzing or Thinkercad
- Circuit **blocks**
- **Pictures** of the project
- If you want to send also some **videos** just write the the **link** in which the video are stored
