

<b>Student ID (matricola)</b>	<b>Learning Unit title</b>	<b>Points /10</b>
1728334	Database project	10
1919832	Wi-Fi networks	5
1593693	Network Architecture and data exchange format	10
1837592	Introduction to programming languages	10
1961652	Introduction to router	7
1795039	Network Security	10
2017897	The GNU/Linux Operating System	10
1807439	Layered Architecture - ISO-OSI & TCP-IP	5
1991841	how can we communicate with the computer	5
1797800	Introduction to OOP (in c++)	10
1941283	CONCETTI BASE DELLA TECNOLOGIA INFORMATICA	9
1739085	Introduction to C	10
1992028	Data Base Management System function (DBSM)	10
1992029	Web languages	10
1920305	Network topology	5
1658660	SQL LU	10
1755665	UI in Software Development / TCP-IP Protocol Stack	10
1909991	Assembly for x86	10
1852473	Introduction to Programming	10
1991843	How can we communicate with the computer?	4
1971644	DEVICES FOR THE CREATION OF LOCAL NETWORKS	9
1988254	Software Development Methodologies	10
